Throughout the years many dedicated St. Mary's parishioners have donated wonderful items to our parish. Others too donated their time and talents musically, in the liturgy, as communion distributors, helped to maintain the church, decorating etc. We felt that there may be items we were unaware of from many years ago donated we might accidentally overlook. If we were to return some donated items we also felt that there might be multiple individuals or families that may have been equally entitled to those items. For these reasons we decided that all items should be put on the auction. Also please note that some sacred items that were used during the Mass could not be auctioned off. We were able to determine which items those were with the help of staff from the diocese. They will hopefully be used by other parishes or disposed of accordingly.
